OFFICE OF THE DIRECTOR OF NATIONAL INTELLIGENCE  
WASHINGTON, DC 20511

2014-0264

MEMORANDUM FOR: Rear Admiral Elizabeth L. Train  
Director, National Maritime Intelligence-Integration Office  
Office of Naval Intelligence

SUBJECT: National Maritime Domain Awareness Architecture Plan Review

As requested, my office led and completed an Intelligence Community review of the National Maritime Domain Awareness (MDA) Architecture Plan. In fact, we have completed two reviews since Fall 2012. Members of the IC CIO's Technical Integration Committee, with representatives from the 17 IC elements, reviewed and provided comments on the MDA Architecture plan. Given my current focus on delivering the foundational services for the classified IC IT Environment, my staff assured me there are no conflicts between the current MDA architecture plan and the IC ITE Enterprise Architecture, or the IC ITE Strategy. As a result, I support the current MDA Architecture Plan as written. As our IC ITE efforts expand beyond the classified environment, I encourage our combined staffs to identify opportunities to leverage IC ITE services to support an evolving Maritime Domain Awareness Architecture.

Thank you for the opportunity to review and comment on your architecture plan. It is a substantial, high quality body of work. I look forward to continued collaboration with your staff. My point of contact for this matter is Ms. Susan Jaxel, 703-874-8520.
